

## **LUNCH SYMPOSIUM NEXSTIM: BRAIN STIMULATION (NBS) IMPROVES TREATMENT OF BRAIN TUMOR PATIENTS**

Monday, May 15 2017

12:45 - 13:45

Location: Saal Horsley (Halle 1)

Language: English

### Moderation

Mr Neil Kitchen

National Hospital for Neurology and Neurosurgery, London

Prof. Dr. med. Bernhard Meyer

Direktor der Neurochirurgischen Klinik und Poliklinik, Klinikum rechts der Isar, Technische Universität München

### Program

- 12:45      How many brain tumour patients require NBS?  
Dr Francesco Vergani  
King's College Hospital NHS Foundation Trust, London, United Kingdom
- 12:50      Risk Assessment before Brain Tumor Surgery and Cervical Myelopathy Decompression  
PD Dr. med. Thomas Picht  
Arbeitsgruppenleiter präoperative Diagnostik, Charité - Universitätsmedizin Berlin
- 13:02      Clinical use of nTMS language mapping  
PD Dr. med. Sandro Krieg, MBA  
Oberarzt, Neurochirurgische Klinik und Poliklinik, Klinikum rechts der Isar, Technische Universität München
- 13:14      Pain, Depression and Stroke – Best protocols in practice and new applications  
Turo Nurmikko MD, PhD  
Professor of Pain Relief at The Walton Centre NHS Foundation Trust  
Honorary Professor of Pain Relief at the University of Liverpool
- 13:29      IOM starts with NBS  
Dr. med. Kathleen Seidel  
Oberärztin, Universitätsspital Bern
- 13:37      Beyond functional reorganization – To trust or not to trust subcortical direct stimulation in surgery of recurrent gliomas in any case  
Dr. med. Carolin Weiß Lucas  
Funktionsoberärztin, Zentrum für Neurochirurgie, Uniklinik Köln
