Nexstim Plc Corporate Presentation, Redeye Investor Forum Online, 3 December 2020

Nexstim

Important Information

This document and the information contained herein are being presented by Nexstim Oyj (“Nexstim” or the “Company”). In connection with any presentation or review of this document, you agree to be bound by the following limitations and notifications.

This document and the information contained herein are being provided to you solely for your information. The distribution of this document in some jurisdictions may be restricted by law and persons into whose possession this document comes are required to inform themselves about and observe any such restrictions. Accordingly, this document may not be distributed in any jurisdiction except under circumstances that will result in compliance with applicable laws and regulations.

This document is not a prospectus, and the information contained herein does not and is not intended to constitute an offer to sell or the solicitation of an offer to buy, nor shall there be any sale of any securities in connection with this document in any jurisdiction. This document and the information contained herein are not an offer of securities in the United States and are not for distribution in the United States.

Recipients should not treat the contents of the document as advice relating to legal, taxation or other matters. This presentation does not purport to be all-inclusive or to contain any or all the information that prospective investors may desire in analysing and deciding whether or not to hold or transact in the Company’s shares. Neither the Company nor any of its affiliates or representatives makes any representation or warranty, express or implied, as to the accuracy or completeness of this document or any of the information contained herein, or any other written or oral communication transmitted or made available to the recipient or its affiliates or representatives. The Company and its affiliates or representatives expressly disclaim to the fullest extent permitted by law any and all liability based, in whole or in part, on this document or any information contained herein or any other written or oral communication transmitted or made available to the recipient or its affiliates or representatives, including, without limitation, with respect to errors therein or omissions therefrom.

Recipients should not assume that the information in this document is accurate as of any date

other than the date of this presentation. Nothing contained herein is, or should be relied upon as, a promise or representation as to future performance. The Company does not undertake any obligation to update or revise this this document.

Certain of the information contained herein concerning industry and market data, economic trends, market position and competitiveness is based upon or derived from information provided by third-party consultants and other industry sources. Neither the Company nor any of its affiliates or representatives can guarantee the accuracy of such information or has independently verified the assumptions upon which projections of future trends and performance in such information are based.

Nexstim's NBS System is cleared by the FDA for assessment of the motor and speech cortices for pre-procedural planning. Nexstim has launched its NBT[®] system in the US for the treatment of Major Depressive Disorder (MDD) following clearance from the FDA for marketing and commercial distribution for this indication. The NBT[®] system is CE marked in Europe for the treatment of major depression and chronic neuropathic pain.

FORWARD-LOOKING STATEMENTS

This document may contain forward-looking statements that reflect the Company’s current views with respect to certain future events and potential financial performance. Although the Company believes that the expectations reflected in such forward-looking statements are reasonable, no assurance can be given that such expectations will materialise. Accordingly, results could differ materially from those set out in the forward-looking statements as a result of various factors. To the extent that this document contains opinions, estimates, forecasts or other forward-looking statements, no guarantees or undertakings that these are correct or complete are given by the Company or any of its respective members, advisors, officers or employees or any other person. Forecasts and assumptions which are subject to economic and competitive uncertainty are outside such person’s control and no guarantee can be given that projected results will be achieved or that outcomes will correspond with forecasts. Information in this document may be changed, added to or corrected without advance notification.

Table of Contents

- Overview
- Therapeutic
 - Major Depressive Disorder (MDD)
- Business Update & Key Financials

Nexstim has a unique proprietary neuronavigated TMS technology that delivers best in class mapping and treatment for patients with brain diseases and disorders.

We are well positioned to a disruptive shift in depression treatment and therapy delivery.

With improving economics, driven by record revenue and increasing operational efficiencies, Nexstim is a unique investment opportunity.

Personalised Transcranial Magnetic Stimulation (TMS)

SmartFocus® Technology with a Highly Sophisticated 3D Navigation

Unique & Proprietary Technology

- Commercial-stage med tech company with a unique, proprietary navigated neuro-stimulation technology for diagnostic and therapeutic applications

World Leading Centers Rely on Nexstim Device

- Diagnostic application well established with compelling clinical data and global installed base of 170 systems (e.g. Mayo Clinic, MD Anderson, Karolinska, Charite)

Competitive Advantage in an Attractive Market

- Nexstim's navigation technology promises improved efficacy of TMS depression treatment
- TMS treatment of depression is covered by US Medicare and is rapidly gaining traction as treatment modality

Well Positioned for Future Development

- Therapy system and IP well support the new current 3 min Theta Burst Protocol (iTBS) and potential accelerated iTBS treatment protocols

Proprietary Navigated TMS System

Only TMS technology with ability to take the uniqueness of a patient's brain into consideration for therapeutic and diagnostic applications

Use	System	Application	Europe	US	Commercial Status
Therapeutic	Navigated Brain Therapy (NBT®)	Depression	CE marked	FDA approved with existing reimbursement	Multiple systems installed globally
		Chronic pain	CE marked	Additional clinical trials evaluated	Multiple systems installed in Europe
Diagnostic	Navigated Brain Stimulation (NBS)	Pre-surgical mapping	CE marked	FDA approved	Installed base of over 170 systems globally

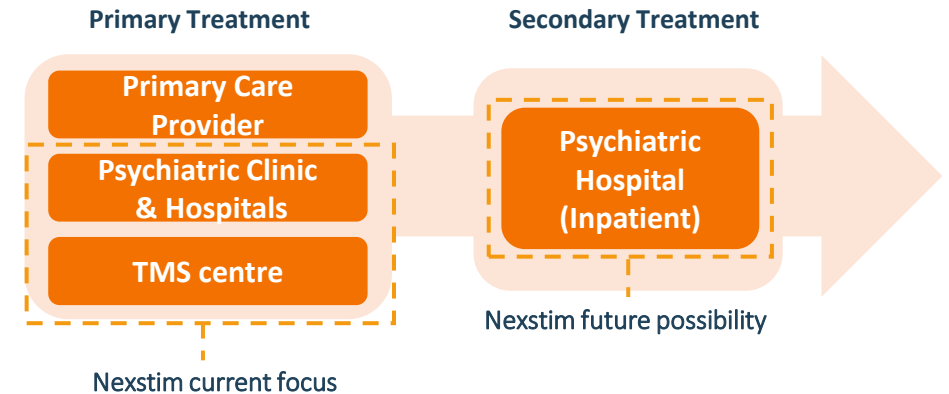

Nexstim depression business opportunity

- Major depressive disorder affects 2-5% of the population in developed countries¹
- Existing psychotherapy and pharmacological treatment options are suboptimal
- Addressable market for NBT treatment of depression of 6 million patients represents a total treatment value of over EUR 40B²
- Reimbursement for TMS is already available in US and some EU markets
- 2020 H1 NBT revenue EUR 0.7M (18% Growth)
- Active installed base of 28 NBT therapy systems at end of June 2020 in clinics and hospitals globally
- Nexstim has in September 2020 started a pilot study in treating severe depression patients with accelerated iTBS therapy treatment protocols

Market size estimate² (patients)

Patient treatment pathway in the US for MDD

1) Vos, T., et al. (2016) Global, regional, and national incidence, prevalence, and years lived with disability for 310 diseases and injuries, 1990–2015: a systematic analysis for the Global Burden of Disease Study 2015;

2) PMSI Consulting analysis and estimates

Nexstim Business Update H1 2020

- Focused on minimizing the effect of COVID-19 pandemic as well as updating Company strategy
- Strong progress considering the difficult business environment
 - **Four new NBS systems sold** (three in the US and one in Europe)
 - Total of **five new NBT® systems installed** to clinics in the US and Europe, across multiple sites, for the treatment of MDD
- 2020 H1 was historically the **Company's best first half** to date
 - Total net sales = EUR 1.6M (2019 H1: EUR 1.2M)
 - Operating result = EUR -1.8 million (2019 H1: EUR -3.4M)
 - Result for the period = EUR -1.2M (2019 H1: EUR -3.7M)
- NBS net sales grew by 47% in 2020 H1 to EUR 0.9M (2019 H1: EUR 0.6M) and the NBT® net sales grew by 18% in 2020 H1 amounting to EUR 0.7M (2019 H1: EUR 0.6M)
- The successful rights issue executed in the spring was oversubscribed and raised a total of **EUR 2.2M of new equity**
- Business Finland decided on a partial debt cancellation of three R&D loans granted for stroke rehabilitation including accrued interests (**total of EUR 0.9 million of loan capital will not be collected**)

NBT® / NBS Revenue – Existing Business

- Steadily growing business, showing all time high figures in H1 2020
- Rolling 12 months revenue has been staying well above the growing trendline through 2020
- Rolling 12 months average therapy revenue per system was approx. EUR 70k at end of June 2020
- NBT® business provides strong recurring revenue to secure and accelerate growth
- As recurring therapy revenue is representing a larger portion of the sales mix, the gross margin -% is also continuously growing
 - High gross margins at up to 95%
 - 66% of total therapy revenue during 2019
 - 100% of therapy revenue in 2020 H1
- Aiming for profitable growth through increasing recurring revenue driven by high system utilization

Cumulative YTD Total Revenue 2018-2020

Rolling 12 months Revenue

Additional Revenue Opportunities

Accelerated iTBS protocol revenue

- Entry to the large untapped hospital inpatient TMS market in severe depression as well as post-remission outpatient maintenance therapy
- Nexstim E-field navigated TMS system required for best outcomes in general (also protected by IP)
- Clinical outcomes provide superior economic benefits and compelling incentive to hospitals
 - Approx. \$22,000 savings per patient treated
- Product launch expected during current strategy period ending 2024

US Nexstim clinics revenue

- Partnership business model opportunity with path to near-term profitability
- Nexstim outcomes available to more patients sooner (including possible future in accelerated iTBS)
- Moving deeper into the patient treatment value chain to extract more margin and develop profitability
- Significant value proposition to partner
- Ongoing advanced discussions with first clinic

Near-term Objectives / Milestones

1

Decrease the operating loss with focus on achieving profitable revenue growth and strict management of operating expenses. Full year 2020 net sales are estimated to increase, and operating loss is expected to decrease in comparison to year 2019

2

Started two new pilot studies in treating severe depression (Kuopio University Hospital) and chronic pain patients (Helsinki University Hospital) with accelerated iTBS therapy treatment protocols

3

Develop and execute a deeper profitable partnership business model in the key therapy markets together with valued partners

4

Patient data registry of first 108 completed MDD treatment sessions – 42% remission and 74% response rates

5

Continue developing the NBS pre-surgical mapping reimbursement process for the US and strategic partner search for the diagnostic business

6

Obtain funding to achieve the Company's strategic vision from capital markets and/or through strategic partnerships

Nexstim has a unique proprietary neuronavigated TMS technology that delivers best in class mapping and treatment for patients with brain diseases and disorders.

We are well positioned to a disruptive shift in depression treatment and therapy delivery.

With improving economics, driven by record revenue and increasing operational efficiencies, Nexstim is a unique investment opportunity.

Thank you!
